&
Secretary, Department of Atomic Energy

MESSAGE

It gives me great pleasure to note that ECIL is celebrating its 50th Formation Day on 11th April 2017 and I convey my Best Wishes to each and every of my colleague in ECIL on this momentous occasion.

ECIL is a notable example of Dr. Homi J Bhabha's magnificent vision of enriching the country with a strong indigenous base for professional grade electronic equipment. ECIL's contributions to the Nation over the last fifty years far exceed the top and bottom lines of the Company and the contribution to the exchequer. The main contribution of ECIL is the capability and competence to design, develop, manufacture and deliver the critical electronic systems required for the strategic sectors of our country with the intrinsic R&D and technological strengths nurtured over the years. With its pioneering products and technologies, ECIL has become the pride of DAE and Nation.

I wholeheartedly wish ECIL a grand success in all its future endeavors.

Sekhar Basu
