The know how of "Preparation of composite Polyamide RO Membrane for BWRO Desalination" was transferred to M/S. Davey Products, C-440 North Phase, Ambattur Industrial Estate, Ambattur, Chennai-600 098 today in a simple ceremony at Nuclear Desalination Demonstration Plant, Kalpakkam. This is the fourth party to whom this technology has been transferred.

Few photographs of the event are attached with this press release.

You are requested to give it a wide publicity in your esteemed News Paper/ Channel.

Thanking you and with warm regards.

Yours sincerely

(R.K. Singh)

BARC PRESS RELEASE

TECHNOLOGY TRANSFER KNOW HOW FROM BARC

"Preparation of composite Polyamide RO Membrane for BWRO

Desalination" Technology

The technology of "Preparation of composite Polyamide Reverse Osmosis Membrane for Brackish Water Reverse Osmosis (BWRO) Desalination" has been developed by the Desalination Division, BARC. This indigenously developed technology is based on membrane process to get potable quality water from brackish water. The technology transfer includes the know-how of membrane making process.
