**ECIL collaborates with C-DOT and CDAC for Digital India**

**Hyderabad: Electronics Corporation of India Limited (ECIL)** signed a Memorandum of Understanding with Centre for Development of Telematics (C-DOT) for making GYAN SETU (Knowledge Bridge) - an internet based real time Information Communication Technology system to provide e-services in local languages to the rural population of India. The system developed by C-DOT was handed over to Shri P. Sudhakar, Chairman and Managing Director, ECIL by Shri Ravi Shankar Prasad, Honourable Minister of Communications and Information Technology, Government of India in the presence of Shri Vipin Tyagi, Director of C-DOT at a function held in New Delhi on the occasion of Good Governance Day. GYAN SETU overcomes the limiting factors of rural masses including low / no literacy level and requires exposure only to local language, for getting connected to the internet through a power optimized rugged platform for highly visual based information.

The Honourable Minister also launched some key products for Telecommunications, Information Technology and Power sectors on this occasion for which ECIL is a key partner. The Transfer of Technology documents of MAX-NG, the next generation main automatic telephone exchange

developed by C-DOT, iROSE a software package for Supervisory Control and Data Acquisition (SCADA) systems and Phasor Measurement Unit for power sector developed by Centre for Development of Advance Computing (CDAC) were also handed over by the Honourable Minister to Chairman and Managing Director of ECIL on this occasion. These indigenously developed and manufactured products will go in a long way making Digital India.
